

Dear IREA Members:

IREA is now offering renewable energy credits (RECs) to its members. These credits represent the environmental attributes of renewable energy and offset conventional electricity generation.

As an IREA member, you now have the opportunity to purchase non-solar or national solar RECs on a monthly basis or as a one time purchase. You will also receive a certificate acknowledging your participation.

If you agree to purchase RECs, IREA will collect your due amount by adding a separate line item to your monthly billing statement. The monthly amount designated by you will be added to your statement each month until you notify us in writing you no longer wish to participate.

Please note this is a voluntary program and your selected purchase amount is in no way associated with your monthly electric usage and charges.

[Please tear on dotted line and mail at your convenience or with your utility bill.]

RENEWABLE ENERGY CREDITS PURCHASE

Name: _____ IREA Account # _____

Mailing Address: _____

City _____ State _____ Zip _____
